

Joint Tolerance _ CNC Router & RhinoCAM

Process: CNC Router (subtractive fabrication)

Project: Select (2) Joints from your CNC furniture project. Fabricate them at half scale

Material: 1/2" MDF

Learning objectives: Tolerances - Does it fit together?

Deliverables: Screen shot of RhinoCam Simulation
Photos of CNC milling process and finished half scale joints
All photos should be professional photoshopped photos with good lighting

Schedule: Due before Class-06

Submit: Bring (2) Half Scale Joints with you to class
Submit all deliverables to the shared Google Drive
